

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Active Solar, a sub-fund of LUXEMBOURG SELECTION FUND, class X GBP (ISIN: LU2341110356)

This sub-fund is managed by UBS Asset Management (Europe) S.A., which is a member of the UBS Group.

Objectives and investment policy

The Sub-Fund's investment objective is to achieve long-term capital growth. The Sub-Fund aims to achieve this by investing at least two-thirds of assets in shares of companies which are primarily active in the solar sector. The Sub-Fund has a sustainable environmental objective of Climate Change Mitigation. The Sub-Fund aims to invest in the best companies within the solar sector based on a detailed fundamental analysis and on the exclusion of companies with material ESG risk in respect to the indicators detailed in the prospectus. On implementation of the fund strategy, investment managers do not limit themselves to one individual technology or a single market, but rather seek to identify the leaders in each segment and each step of the Solar PV value chain. In order to reach the net zero carbon emission objective, greenhouse gas emissions of investee companies will be measured and will need to decrease over time to reach net zero by 2040. The Sub-Fund is actively managed. In order to calculate the performance fee, the Sub-Fund compares its performance to the benchmark MSCI WORLD NET TOTAL RETURN USD INDEX. The performance fee will be paid regardless of whether the reference benchmark index itself has positive or negative performance. Further information on the calculation of the performance fee can be found in the prospectus. This fund may not be appropriate for investors who plan to withdraw their money within 8 years of investment.

The return of the fund depends primarily on equity market development and dividend payments.

Investors may demand to redeem their units every normal bank business day in Luxembourg.

The income in respect of an accumulation share class is not distributed but is retained in the sub-fund.

The currency of this share class differs from the reference currency of the Sub-fund and is therefore hedged against the reference currency of the Sub-fund.

Risk and reward profile

More about this rating

- The rating is based on price volatility over the last five years.
- Past data used in calculating the SRRI may not be a reliable indication of the future returns.
- The rating is not guaranteed to remain unchanged and the categorisation may shift over time.
- The lowest rating does not mean a risk-free investment. The differences between ratings are not based on a simple scale. 2 is not twice as risky as 1. The gap between 1 and 2 might not be the same as the gap between 2 and 3. The rating is not a target and the investment strategy is not managed to the rating. The rating is an absolute indicator of risk.

Why is this fund in Category 7?

The fund invests in international equities from various sectors and may therefore be subject to large fluctuations in value. The rating is therefore dependent on fluctuations in equities markets.

Further material risks:

- To a lesser degree, over-the-counter instruments are used, which is why the fund also has a minor counterparty risk.
- The operating risk for the management of this fund (the possibility that no valuation can be compiled or that a transaction cannot be completed) is borne by the fund management company which is guided and regulated by independent bodies, external auditors and supervisory authorities.
- The product offers no capital guarantee, investors can therefore lose their entire investment.

Charges

The charges you pay are used to pay the costs of running the sub-fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	2.00%
Exit charge	0.00%
Conversion charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.57%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	15.00%
-----------------	--------

* As at 31/12/2023, the performance fee represented 0.00% of the fund.

The **entry charge** shown is a maximum figure. In some cases you might pay less – you can find this out from your financial adviser.

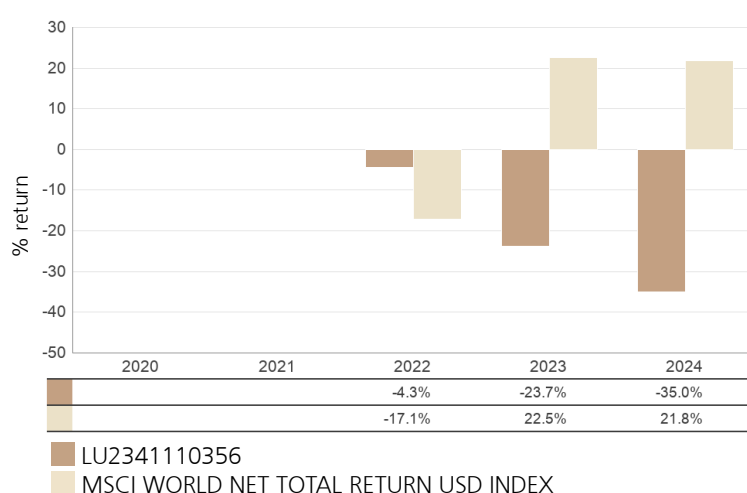

These **ongoing charges** are the actual charges over the last 12 months. They can vary from year to year. They do not include:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.
- Performance fees.

For more information, please see the charges section of the fund's prospectus, which is available at www.fundinfo.com.

* Performance fees may be paid, under certain conditions described in the prospectus. The maximum commission is 15.00% of the overperformance.

Past performance

Performance in the past is not a reliable indicator of future results

The chart shows the class's investment returns calculated as percentage year-end over year-end change of the class net asset value. In general any past performance takes account of all ongoing charges, but not the entry charge. If the sub-fund is managed against a benchmark, its return is also shown. The sub-fund was launched in 2008. The Class was launched in 2021.

The past performance is calculated in GBP. Since 05/07/2021 the fund's reference index for performance comparison is the MSCI WORLD NET TOTAL RETURN USD INDEX. The fund did not compare its performance against any reference index prior to that date.
